

Brass Instrument Free Try Out

Dear Parent,

Today I visited school to demonstrate some brass instruments to the pupils. The brass family includes Trumpets, Trombones, Baritones and more.

Learning an instrument is fantastic fun and can lead to some amazing opportunities, as well as having been proven to help development in other subject areas.

I will be offering free try out sessions to give them the chance to have a hands on experience and see if it is something you wish to pursue further. If you would be interested in attending a free try out session then please e-mail me at the address below expressing your interest and I will get back to you with more information.

Many thanks,

Robin Langdon
