

Oaklands Junior School

Annex A: Covid-19 Behaviour Principles

- **Arrival/Departure:** staggered times introduced for all groups of pupils arriving and leaving school; these arrangements shared with parents as appropriate. Social distancing to be adhered to when in contact with people in different year group bubbles.
- **Temperatures:** taken with an infrared thermometer if a child is suspected of having symptoms– if high, parents informed and pupil sent home
- **Classroom Access:** entering or leaving the classroom at any time will **only** be through the fire exit to the pedestrian walk way; the internal classroom door will **only** be used to access the toilets. Doors into the Daisy garden or to other year group corridors are **not** to be used unless directed by a member of staff.
- **Hygiene:** thorough handwashing on arrival and throughout the day when changing activities or going out to break/lunch or returning to class (20 seconds min); pupils reminded **not** to touch their face and to use a tissue (or elbow if no time) for a cough/sneeze, disposing of the tissue safely in the bin (posters for hygiene, handwashing, ‘catch it, bit it, kill’ it displayed on entry to class and by bin)
- **Behaviour:** Pupils are told and know the reason why it is **not** appropriate to cough or sneeze towards another person, and spitting will be dealt with very seriously, with parents informed. Any misconduct will be dealt with in line with the school’s Behaviour Policy.
- **Groups:** to keep together as a year group with same teaching staff; no inter-mixing with children in other groups – this applies to lessons, breaks and lunchtimes. Staff may move between bubbles but must adhere to social distancing guidelines.
- **Break:** Snacks brought in from home (fruit/veg) **not** to be shared. Breaktimes will be staggered for playground use. Groups will be told areas for play and those areas that are out of bounds (same adult supervision for groups). Games equipment will be kept within year group bubbles, to reduce cross-contamination at break and at lunch.
- **Lunch:** Packed lunches can be ordered or brought from home but **never** shared. Named lunchboxes to be stored in allocated place. Lunch in own classrooms.
- **Corridors:** moving around the school as per specific instructions, observing 2m distance; **not** entering corridor if someone is approaching (use cloakroom passing area). One-way system not possible - safeguarding risk as doors would need to be left open.
- **Symptoms:** pupils aware of symptoms of being unwell, persistent cough/sneeze, high temperature, loss of smell or taste – immediately to be sent home. Parents called to collect; pupil then awaits collection in the hall (with their belongings). A member of staff remains at a social distance in the hall.
- **Belongings/Equipment:** Any equipment given for use in school will be personal to each child and contained within their own named bag (to be kept in school for school use)
- **Toilets:** each year group have their own and **not** shared with other groups. Staff to ensure that only 1 girl/1 boy to leave the classroom at any one time, to limit numbers in toilets.
- **Home Learning:** will be provided in the case of any further lockdown or for children self-isolating.
- **No Extra-curricular clubs/Assemblies** until November 2020 at the earliest.
